Network Platforms Group

Intel Corporation

INTEL® NETWORK BUILDERS – ACCELERATING NETWORK TRANSFORMATION

An Intel led ecosystem of ISVs, OSVs, OEMs, ODMs, TEMs, SIs, and end users with a shared mission to accelerate network transformation on Intel architecture based servers

Intel Architecture, FPGAs, Software, Security

End to end partnership with a robust ecosystem

INTEL[®] NETWORK BUILDERS ENGAGEMENT MODEL

Intel Network Builders is an membership program that provides CoSP with insight on network transformation accelerated by broad industry engagement

Business transformation
– what are the success
models

Gain insight on
commercially
available
solutions

Support on
latest
technologies

Get Industry
Insight

Train your
teams

- ✓ Deep dive on individual business models and match up with network transformation models

- ✓ Insight on a community of 350+ ecosystem ISV/OSV/OEM/ODM/SI

- ✓ Exposure to Intel Roadmaps and INB ecosystem solution readiness

- ✓ Attend NDA, CommSP led events, meet with Intel Execs for tailored approach

- ✓ A technical training program for Intel's end user customers, with individualized content

LACK OF NFV TRAINING DETERS NFV ADOPTION

LACK OF SKILLS

LACK OF KNOWLEDGE/SKILLS was noted as one of the **TOP 3 PROBLEMS** or issues Service Providers face that hold back commercial deployment of NFV in their network

IHS Technology – Service Provider Survey
June 2017

TALENT GAP

Operators and CSPs are finding that there are not enough people with the **relevant skills** and practical experience both in-house and entering the industry, resulting in a **GROWING TALENT GAP**.

Computer Business Review – Barrier to Progress- January 2018

IT MEETS NETWORK

HUMAN REVOLUTION as well," said Laurent Herr, the vice president of OSS for OBS, during a presentation at today's TM Forum Live! event in Nice, France. "We need new **HARD SKILLS** on the network and IT side -- the hardware guys need to understand what is happening on the OSS side and the IT people need to understand the network."

[Iain Morris, News Editor, Light Reading, 5/10/2016](#)

INTEL® NETWORK BUILDERS UNIVERSITY PROGRAMS

Creating Real Value for Communications Service Providers

INTEL® NETWORK BUILDERS UNIVERSITY

INTEL® NETWORK ACADEMY

COMMSP F2F TRAINING

ECOSYSTEM DEEP DIVE TRAINING

CUSTOM PATHWAYS

INNOVATION SUMMITS

INTEL® NETWORK BUILDERS UNIVERSITY

A technical training program for Intel's end user customers and Intel® Network Builders ecosystem partners aiming to accelerate the adoption and deployment of virtualized technologies through education.

Training courses are delivered in short video format

Quizzes are available after training to support understanding

Available whitepapers, product briefs, and other related materials.

Intel Network Builders End User Ecosystem Member Benefits:

Intel NDA Content

CoSP Innovation Summits

Face to Face Training Opportunities

Reporting

Early Access to Technical Training

Deep Dive Virtual Lab Technical Training

Customized Curriculum Paths

INTEL® NETWORK BUILDERS UNIVERSITY

Technical Education

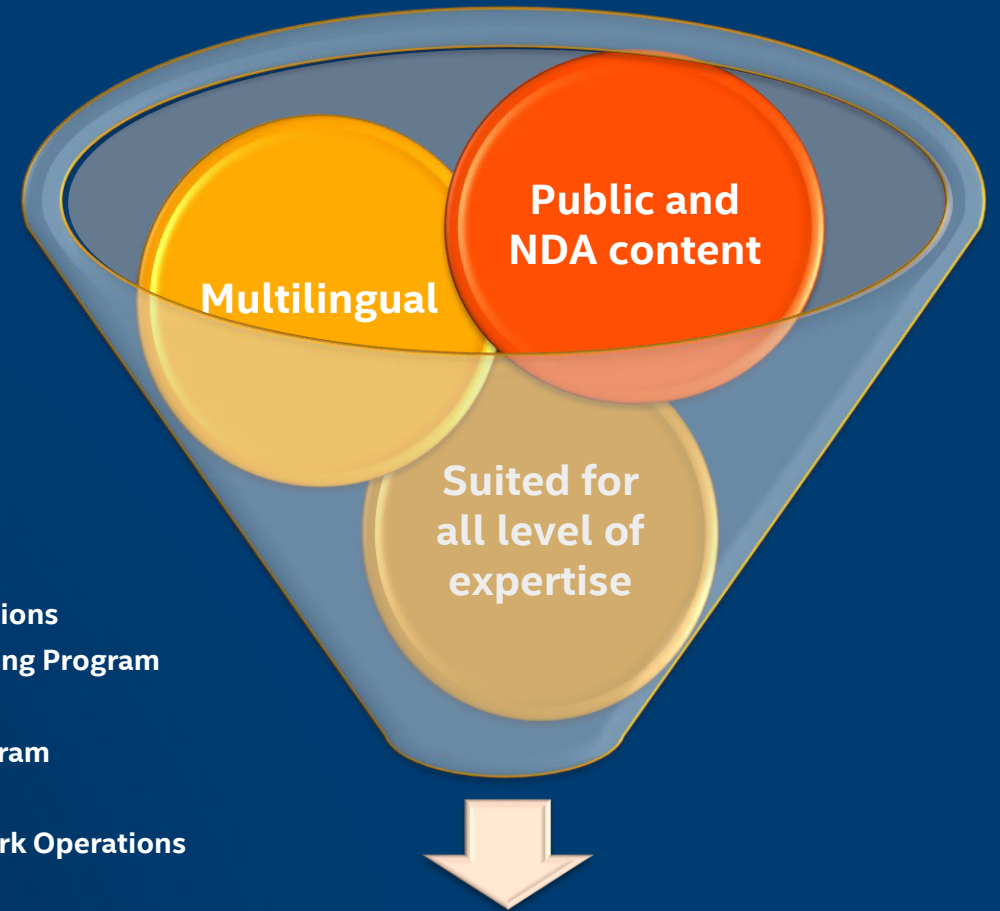

Transforming The Network from Edge to Core

200+ Training Courses across 19 Programs

- Intel® Network Academy
- Basic Training Program
- Service Provider Program
- DPDK Program
- OvS Program
- Security Program
- MANO Program
- OpenStack Program
- vE-CPE Program
- Gi-LAN Program
- vEPC Program
- vIMS Program
- Intel® Select Solutions
- AI/Machine Learning Program
- Cable Program
- Visual Cloud Program
- QAT Program
- Virtualized Network Operations

Technical Programs Planned for Development

FlexRAN
Network Edge
5G

INTEL® NETWORK ACADEMY

A **formal training program on network technologies** to accelerate Network Transformation for Communications Service Providers and the Ecosystem that supports them.

Pertinent and timely training addressing real adoption challenges

**100
LEVEL**

FOUNDATION LEVEL

Introductory Lessons and Fundamentals

Topic Areas:

- Consumers and Providers of Service
- Inside the Telco Cloud
- Network Functions Virtualization
- Software Define Networking
- VNF Operations
- VNF Development
- Intel Hardware and Software Benefits
- The Road Ahead

**200
LEVEL**

INTERMEDIATE LEVEL

+

**300
LEVEL**

ADVANCED LEVEL

being planned for 2020-2021

INTEL® NETWORK ACADEMY CURRICULUM AT A GLANCE

Consumers of Service: IoT, Autonomous Vehicles, Smart Stadiums, Enterprise Digital Transformation

Provider Services

Provider Services:

5G, SD-WAN, Visual Cloud

Telco Cloud

Telco Cloud:

vGi-LAN, vEPC, vIMS, FlexRAN, vCPE

NFV

VNF Development:

Cloud Native Architecture, Security, FD.IO, DPDK

SDN

VNF Ops

VNF Operations:

Virtualization, Containers, Kubernetes, OpenStack

NFV:

VNFs, Service Chaining & Orchestration

VNF Dev

Intel Products:

FPGA, SR-IOV, Smart NICs, Hyperscan, TXT, Quick Assist

SDN:

Network Slicing, Transport Network Orchestration

SUMMARY

NETWORK TRANSFORMATION IS **HAPPENING NOW**

GETTING INVOLVED IS HOW YOU CAN MANAGE THIS TRANSFORMATION

TOGETHER WE CAN CREATE THE **NEXT GEN NETWORKS** ERA

REGARDLESS OF YOUR ROLE, THERE ARE **MANY WAYS** TO CONTRIBUTE TO THIS TRANSFORMATION

HOW TO JOIN INTEL® NETWORK BUILDERS

- Contact Intel Network Builders team and let us know if you are interested in our program
- You will be notified of acceptance in the program based on discovery meeting
- Sign up to the program following the instructions we'll provide. There are no membership dues or fees associated with program
