Powering the Future of 5G: Ericsson and Intel Drive Cloud RAN and AI Innovation

Ericsson leverages Intel® Xeon® processors across multiple dimensions of the portfolio. Our Cloud RAN solution, powered by Intel Xeon processors, delivers unparalleled flexibility and performance, meeting the dynamic demands of our customers and pushing the boundaries of innovation in the AI and 5G landscapes.

The Ericsson Cloud Native Infrastructure Solution (CNIS) enables Intel Xeon 6 E-core processor-based servers, as a system verified solution to Ericsson's entire dual-mode 5G Core application portfolio.
