Mavenir for Network Energy Efficiency Cloud-native 5G Core UPF Deployments

Cloud-native, AI-enabled and energy-efficient network solutions are showcase of the Mavenir and Intel recently collaborated to take a step forward in enhancing network energy efficiency and sustainability for CSPs. By integrating the Intel® Infrastructure Power Manager for 5G Core with the 4th Gen Intel® Xeon® Scalable processors, this partnership promises to significantly reduce energy costs and carbon emissions, while upholding essential telco performance metrics.
