AI-Powered Edge and Security Platforms

In collaboration with Intel, NEXCOM delivers advanced network infrastructure and Edge AI solutions, enhancing reliability and AI-driven workloads worldwide with flexible, customer-tailored solutions.

Its latest Intel-powered innovations include:

- DNA 140 and DNA 141 – Compact branch office SD-WAN solutions powered by Intel Atom® x7000RE and x7000 processor series, delivering outstanding cryptography performance for security-intensive workloads.
- NSA 7160R – Edge AI video solution featuring dual Intel® Xeon® Scalable processors for advanced data analytics, image recognition, and cybersecurity AI.
- FTA 5190 – High-speed Ethernet edge server with Intel Xeon® 6 SoC and built-in AI acceleration, offering unmatched performance for deep learning and data compression.
