Partner Highlight

QCT Showcases AI-enhanced 5G Solutions at MWC 2025

QCT will be showcasing an impressive portfolio of 5G x AI products and solutions powered by Intel at MWC 2025. Highlights include next-gen QuantaEdge and QuantaGrid servers designed for Open RAN deployments, and the OmniPOD end-to-end Private 5G solution featuring advanced network slicing and URLLC capabilities.

We will also demonstrate our ecosystem collaborations with leading partners and open communities such as Singapore University of Technology and Design (SUTD), Viavi Solutions, Techman Robot, Vossic, Solomon, Telecom Infra Project (TIP), and O-RAN ALLIANCE. Additionally, visitors can explore our AI-enhanced predictive maintenance solutions, optimized for a 5G environment.
