Sparkle and Intel Showcase Quantum-Safe VPN at MWC 2025 with Live Secure Connection Demo

Sparkle will showcase its QSI (Quantum-Safe over Internet) NaaS product at MWC 2025. A live quantum-safe VPN connection leveraging Arqit SKA Platform and Intel NetSec Accelerator Reference Design for secure and flexible networking services. Demonstrations at Booth Hall 3 Stand 3E31 will highlight features such as real-time on-demand activation of a quantum-safe connection between Barcelona and Sparkle's PoP in Athens via the Sparkle Customer Portal and Network as a Service Platform, with live traffic. The demo will also provide insights into symmetric key exchange mechanisms, network information, and the role of quantum security in future-proofing communications
