

# Partner Highlight

AI Inside for a New Era.  
One platform. Endless Possibilities.

## Empowering the Future of Networking with High-Performance, Open, and Scalable Solutions

UfiSpace proudly introduces cutting-edge networking solutions powered by 6th Gen Intel® Xeon® (GNR-D) processors, delivering speeds from 25G to 800G for data centers and telecom. Our next-generation 1.6T platform drives AI networking innovation, ensuring high performance and scalability. With versatile hardware configurations supporting IPoDWDM, MACsec, and a robust software ecosystem, we enable seamless integration and enhanced security. Committed to open and disaggregated network architectures, we connect the future and unlock new possibilities in high-speed connectivity and AI-driven infrastructure.
