

Advanced Performance, Robust Security, and Seamless Connectivity in a Space-Saving Design

Acer Veriton M4730G

acer × intel ai

Powering the Next Wave of AI Innovation

The Acer Veriton M4730G is a compact on-premises powerhouse, powered by the latest Intel® Core™ Ultra 7 Processor 265 with 128 GB DDR5 RAM, featuring an AI performance and is built to run large AI models locally and spark scalable innovation, reducing reliance on cloud services and associated costs. The Acer Veriton M4730G is designed to deliver advanced performance, robust security, and seamless connectivity in a space-saving design with robust AI performance, flexible manageability, and a host of connectivity options to all your industrial design and development requirements. Enhanced by Intel® Arc™ B-580 graphics and Intel® AI Boost, the system accelerates AI workloads with precision and speed. Integrated OpenVINO™ toolkit further optimizes inferencing across diverse frameworks, enabling real-time insights and efficient edge deployment for AI-driven industries.
