

# Raising the Bar on Collaboration

Lenovo  intel.

## All-In-One Bar with Pro Audio, Video, and Compute

Small meeting rooms often suffer from cluttered setups, inconsistent AV quality, and complicated deployment. [ThinkSmart One Pro](#) solves these challenges by combining audio, video, and compute into a single, sleek device that delivers a premium collaboration experience. Paired with the Lenovo IP Controller, users gain a consistent, intuitive touch interface that simplifies in room control and reduces support needs. Its compact design cuts down on cabling and hardware sprawl, while centralized management tools enable IT to monitor, update, and standardize deployments across locations. The system supports flexible mounting and integration options, adapting easily to a range of room layouts. By unifying core collaboration functions and adding a reliable network based control surface, this solution enhances meeting efficiency and provides a consistent, high quality experience that sets it apart from traditional multi device room configurations. Lenovo ThinkSmart One Pro offers top-grade performance and security with Intel vPro® Platform and Intel® Core™ i5 processors.
