

AI that moves the world.

That's the power of Intel Inside®.

High-Performance & PCIe Expandable Industrial Computer for Edge AI Computing

Visit Cincoze at Embedded World 2026 and see how the DS-1500 Series, featuring Intel® Core™ Ultra 200S series processors, brings workstation-class compute and AI acceleration to demanding edge environments.

With integrated CPU, GPU, and NPU delivering up to 36 TOPS of AI performance, 3.5x more than the previous generation, the DS-1500 enables real-time analytics for smart manufacturing, rail, and critical infrastructure while maintaining fanless reliability from -40°C to 60°C.

Plus, discover scalable PCIe expansion up to dual slots, rich native and modular I/O, and wide-temperature, wide-voltage rugged design with MIL-STD-810H and EN 50121-3-2 certifications, making the Intel-powered DS-1500 an ideal choice for edge AI, vision inspection, and intelligent transportation solutions.
