

AI that moves the world.

That's the power of Intel Inside®.

Engicam COMe Type 10 - AI People Counter Demo

The Engicam team will showcase an AI demo running on an Intel® Core™ processor (Series 1) with integrated graphics using OpenVINO™ for people recognition and counting.

They will also provide an opportunity to explore the features of their SMARC and COMe Type 10 modules based on Intel Atom® processors X Series.
