Expand Digital Learning with AI-Ready Multiuser Computing

Co-Share Ultra Desktop PC

VISHAL PERIPHERALS x intel.

Bridge Quality AI Education with Intel® Core™ Ultra Processors

Powered by the Intel® Core™ Ultra 7 processor 270K Plus, the Co-Share Desktop PC by Vishal Peripherals is designed to redefine computing in modern educational institutions. Its innovative multiuser architecture enables a single PC to deliver up to four independent desktop environments, allowing four students to work simultaneously with individual displays and computing experiences.

Built as an AI-ready computing solution, it combines Intel® Graphics and Intel® AI Boost NPU with high-performance processing capabilities to support AI-enabled applications, digital learning and Edge AI workloads. By bringing four independent workstations together in one system, Co-Share helps institutions expand access to computing, optimise infrastructure and build scalable, future-ready ICT labs.

Key Features

- AI-Ready Multiuser Computing
- Low Latency & High Throughput
- Ultrafast Connectivity
- Local Secure & Reliable Execution
