

Faster Fresh Produce Checkout, Improved Billing Accuracy

vFlex Pro & vFlex Pro Plus

vFlex Pro and vFlex Pro Plus by Vizicart are AI-powered self-checkout solutions that simplify fresh produce identification and billing in retail environments. Using computer vision, the solutions automatically recognize fruits and vegetables, including similar-looking produce varieties, and generate accurate transactions based on product weight and pricing.

Designed to improve checkout efficiency, order accuracy, and loss prevention, the solutions help retailers reduce manual intervention, minimize labeling and scanning errors, and deliver a smoother customer experience. Running on Intel® Core™ Ultra Series 3 processors and 14th Gen Intel® Core™ processors and optimized with OpenVINO™ Toolkit and Intel's Retail AI Suite, vFlex Pro and vFlex Pro Plus deliver responsive AI-powered recognition at the edge.

Key Intel-Enabled Features

Produce
Recognition

Automated
Billing

Order
Accuracy

Loss
Prevention

- [Intel® Core™ Ultra Series 3](#) processors accelerate AI-powered produce recognition for responsive self-checkout experiences.
- [14th Gen Intel® Core™ processors](#) enable low-latency edge inference for real-time product classification.
- [OpenVINO™ Toolkit](#) optimizes computer vision models for accurate fresh produce identification and billing.
- Intel's [Retail AI Suite](#) streamlines deployment of retail AI workloads from pilot to production.

By leveraging Intel® technologies, Vizicart's vFlex solutions automate fresh produce identification and billing to reduce checkout delays, improve accuracy, and help minimize retail shrink.
