Intelligence is your edge.

Powered by Intel.

HP x intel.

Enable Intelligent, Secure, and Efficient Retail Environments

Experience a suite of intelligent retail demonstrations that will showcase how HP leverages Intel technology to transform store operations, customer experience and profitability.

Learn how the HP Engage portfolio powered by Intel can enable a wide array of use cases within retail and hospitality environments, such as:

▪ Computer vision self-checkout (SCO) that enables rapid item recognition and seamless transactions.
▪ AI-powered front-end loss prevention demo that features alerts on suspicious cash drawer activity in real-time.
▪ The smart hospitality environment for queue analytics and environmental monitoring.
▪ Seamless SoftPOS payment solutions.
▪ AI-powered retail media and shoplifting alerts.
▪ Fleet management solutions with HP Workforce Experience Platform (WXP) and Intel vPro®.
