### Introducing Nx Witness Gen 6 Enterprise: The Future of Scalable, Intelligent Video Management

Nx Witness Gen 6 Enterprise pushes the boundaries of large-scale video management and surveillance, offering a new level of scalability, efficiency, and centralized control. Built to meet the demands of complex enterprise environments, this release introduces a range of advanced features that streamline management and optimize performance across expansive networks, including:

- **Nx Connect:** A comprehensive portal for managing SaaS channels, software licenses, and billing within a secure, unified system.
- **Nx Maps:** An intelligent GIS mapping tool for real-time geospatial visualization of system devices.
- **New Organization Layer:** Enables infinite scalability with a new hierarchical structure for centralized management of multi-site systems.
- **Plus:** Camera Hotspots, Redesigned User Management, Temporary User Access, and more.
