

IXPC-W215: Seamless Industrial-Grade Two-in-One Interactive Display Solution

IXPC-W215

Modular 2-in-1 Design with Single USB-C for DP, Power, Data, and Simplified Maintenance

The [IXPC-W215](#) is an innovative 2-in-1 modular solution combining the fully waterproof IPPL-W215 touch screen and Intel® Core™ 3 Processor N355-based ACS200 or ACS100 embedded systems. It supports PD 60W via a single USB Type-C, enabling seamless integration while allowing separate use within 2 meters.

The solution offers flexible installation options, including mounting directly behind the screen for an all-in-one setup or connecting them independently using an industrial-grade USB Type-C cable. It significantly reduces cable clutter and improves maintenance efficiency, as only one cable needs to be disconnected when replacing the screen.
