

Intelligence is your edge.

Powered by Intel.

Discover the Kontron Difference — Powered by Intel

Explore Kontron's comprehensive portfolio of high-performance motherboards, single-board computers, and industrial box PCs, all designed and manufactured in Germany for demanding edge and embedded applications. Featuring the latest Intel® Core™ Ultra processors and integrated NPUs, Kontron's solutions deliver exceptional AI acceleration, energy efficiency, and long lifecycle support. This includes cutting-edge platforms such as the K4021-U mSTX, a compact industrial motherboard supporting Intel® Core™ Ultra 7 and 5 processors; the K3836-Q/R mITX, built for 14th Gen Intel® Core™ processors; the 3.5"-SBC-AML/ADN, a versatile single-board computer powered by Intel Atom® x7000(R)E Series, Intel® Core™ i3 N-Series, and Intel® N-Series processors; and the KBox A-251-AML/ADN, a compact industrial box PC designed for edge gateway applications.

Don't miss the live Intel demo showcasing real-time AI capabilities — from image recognition to automation — and see how Kontron's hardware is enabling the future of intelligent infrastructure.
