

# Embedded SoC LCD Displays Built for Digital Signage Solutions

## LCD Screens with Intel® Processor N97 Embedded SoC for Digital Signage

The [Bluefin Intel Ocean series](#) combines power, performance, and efficiency to drive your digital signage experience. Powered by the Intel® Processor N97, the Bluefin Intel Ocean is designed for Windows, SpinetiX DSOS™, Linux, or Chrome OS Flex, a mainstay of industry leading digital signage CMS companies. Bluefin Intel Ocean is available in a range of 16:9 sizes from 10.1" to 75" and larger, as well as ultrawide LCDs. 10-point PCAP touch screens are available on all sizes. Update and manage your screens with optional Wi-Fi, or simplify installation to a single cable with Power over Ethernet on screens up to 21.5". Bluefin Intel Ocean is powered by a full-performance system-on-chip to deliver unparalleled functionality in digital signage, and empower robust networked deployment, control, and analytics from your preferred content management service.

### Key Features
