

Medical Cart Panel PC Swappable Battery Powered by Intel® Core™ Ultra Processors

WMP-22U

22" Fanless Certified Medical Panel PC for Non-Powered Carts and Easy Disinfection

The [WMP-22U/24U series](#) is engineered for demanding professional environments where processing power and uptime are non-negotiable. Driven by the latest Intel® Core™ Ultra processors (Series 1 and 2), it maintains a high-efficiency 15W Thermal Design Power (TDP), ensuring powerful performance without overheating. This architecture natively supports Intel vPro®, providing enterprise-grade security and streamlined remote management for mission-critical IT deployments.

The series is optimized for continuous use, featuring:

- Triple Hot-Swappable Batteries: Delivers 8-10 hours of runtime for uninterrupted operation across extended shifts.
- Predictive Maintenance: Integrated remote battery monitoring allows for proactive health checks, ensuring zero operational interruption.

By merging advanced Intel processing with a resilient, hot-swappable power architecture, the WMP-22U/24U series delivers a reliable solution for mobile clinical workstations and high-stakes industrial edge computing, ensuring that essential tasks never stop.
