Video Management Software – See and do more with data-driven video security

With physical and cyber security threats on the rise, it's more important than ever to level up your business security systems. Milestone XProtect video management software (VMS) connects your cameras, sensors, analytics, and sites in one easy-to-manage interface. You can customize a more future-proof, resilient, and data-safe security environment that lets you see and do more. Trusted in over 500,000 customer sites from small scale to multi-site critical infrastructure. Deploy on-premises or expand your cloud capabilities at your own pace with flexible pure and hybrid cloud deployment options.

Key Features

- Hardware-Accelerated Video Processing
- AI-Powered Video Analytics
- Scalable and High-Performance Storage
- Edge Computing and IoT Integration

Vertical:
Retail
Education
Government
Medical

Use Case:
Situational Monitoring

Country/Geo:
Worldwide
