Intelligence is your edge.

Powered by Intel.

AAEON x intel.

Ultra-Compact Edge Platforms Redefined

Experience next-generation performance with AAEON's full portfolio of Intel®-powered Edge AI solutions.

At ISE, AAEON is showcasing their most advanced platforms built on Intel® Core™ Ultra processors, Intel® N-Series, and 13th Gen Intel® Core™ processors, delivering exceptional AI acceleration, graphics performance, and power efficiency.

Explore compact modules like the COM-HPC Mini (HPC-ARHm), COM Express (Nanocom-MTU, COM-MTHC6), and PICO-MTU4-SEMI, along with rugged edge systems such as the Intelli i14 Edge and BOXER-6407-TWL. See ultra-compact innovation with the de next-RAP8 and UP series SBCs, or discover powerful HMI and panel PC options including the OMNI-2275-ADP.

Whether you need AI-ready compute, rich I/O, multi-display capability, or resilient industrial design, AAEON and Intel together bring the performance needed for the next generation of intelligent edge applications.

Partner Name
AAEON

Booth Location
4G200

Solution Names
- HPC-ARHm
- Nanocom-MTU
- PICO-MTU4-SEM
- GENE-MTH6
- PICO-ADN4
- COM-MTHC6
- Intelli i14 Edge
- UP TWL
- UP TWLS
- UP Squared TWL Edge
