intoPIX Transforms COTS

At ISE 2026, intoPIX will showcase many solutions that leverage Intel platforms & technology.

- For professional users, installers & integrators, intoPIX will demonstrate how its AV solutions turn Intel-enabled COTS equipment (PCs, servers, SDM...) into highly performant AV endpoints for IPMX & ST 2110.
- For developers, intoPIX will demonstrate how its AV technology has been optimized precisely to be embedded efficiently into products that leverage Intel platforms.
