

# Intelligence is your edge.

Powered by Intel.

## Explore Tomorrow's Digital Classroom Today

Visit the Odin booth (1C480) to explore the future of the digital classroom, co-developed with Intel. We will be demonstrating two core solutions built on Intel® technology:

**AI Interactive Recording Classroom:** Experience real-time AI analysis of classroom speech, powered by the OpenVINO™ Toolkit, alongside smooth 4K remote interactive teaching.

**Smart Group Study:** Discover our smart blackboards integrated with the Intel® Ultra Cloud Client terminal virtualization solution, enabling batch device control, multi-system switching, and efficient collaboration.

See firsthand how Intel technology empowers Odin's solutions to build a smarter, more efficient educational environment.
