AI that moves the world.

That's the power of Intel Inside®.

premio × intel.

Powering Physical AI at the Edge

Discover the full spectrum of Intel powered performance at the Premio booth. From modular Intel® Core™ Ultra processor-based mini systems to ultra rugged AI computing platforms, Premio enables Physical AI at the edge through fanless designs and optimized Intel architectures built for efficiency, reliability, and real-world deployment from factory floors to remote sites.

Partner Name
Premio Inc.

Booth Location
3-547

Solution Names
- Industrial GPU Computers
  - VCO-6000 series
  - KCO series
- X86 Super-Rugged Computers
  - RCO-1000 series
  - RCO-3000 series
  - RCO-6000 series
- X86 Semi-Rugged Computers
  - BCO-500 series
  - BCO-1000 series
  - BCO-3000 series
  - BCO-6000 series
- DIN-Rail Fanless Computers
  - DCO-1000 series
- On-Prem Data Center Servers
  - LLM-1U-RPL series
