One System. Multiple Workspaces. Greater Efficiency.

QuadDesk Ultra

ZMD™ ZETTA MICRO DEVICES x intel.

One PC, Four Independent Workspaces with Centralized IT

ZMD-QuadDesk Ultra is a high-performance multi-seat computing solution that enables up to four independent users to work simultaneously from a single host system powered by an Intel® Core™ Ultra processor with integrated Intel® Arc™ graphics. Developed by Zetta Micro Devices (ZMD), the solution allows one host PC to serve up to four users simultaneously. Each user receives an independent workspace with their own monitor, keyboard, mouse, audio, login, files, applications, and isolated USB peripherals.

- Independent user environments and logins
- Personal files and applications for each workspace
- Dedicated keyboard, mouse and audio per seat
- Less hardware to deploy and maintain
- Centralized software updates and IT management

Key Features

- Lower Capex and Total Cost of Ownership
- Lower Power Draw
- Less Maintenance
- Flexible & Scalable Deployment
