

# Sovereign Agentic AI OS for Enterprise Automation

## AIREV OnDemand

AIREV's OnDemand is an all-in-one no/low-code agentic AI platform and decentralized operating system that enables businesses to create, deploy, and manage autonomous AI agents, RAG applications, and intelligent automation workflows across cloud, on-premises, and hybrid environments. It transforms operations by automating workflows end-to-end with intelligence that learns, collaborates, and evolves in real time—delivering value in weeks, not months.

OnDemand features a secure marketplace of 1,200+ specialized agents, visual workflow orchestration, BYOM/BYOI support, batch processing, multilingual capabilities, team collaboration, and enterprise-grade controls.

Powered by Intel®, Intel® Xeon® 6 processors optimize low-latency inference for smaller models (≤10B parameters), while Intel® Gaudi® 3 accelerators enable high-concurrency LLM inference—creating a unified AI stack for faster automation, lower TCO, and enterprise-grade scalability and security.

*Build and deploy intelligent agents with up to 95% automation—**scalable, sovereign, and multi-model ready.**<sup>1</sup>*

### Key Intel-Enabled Features

Rapid Agent Deployment

Cost-Efficient

Optimized Inferencing

Secure

### Accelerate Business Transformation with Optimized, Ready-to-Deploy, Intel-Powered AI Partner Solution

- Modular, decentralized architecture for flexible integrations and the ability to mix-and-match models/agents—enabling bespoke solution development
- Rapid automation with multi-agent orchestration, no/low-code tools, advanced RAG, and native enterprise connectors for CRM/ ERP/HR
- Intel® Advanced Matrix Extensions (Intel® AMX) and MMEs in Intel® Gaudi 3 cards enable optimized, low latency, secure inferencing that is cost-effective and scalable

### Intel Products and Technologies

- [Intel® Xeon® 6 Processors](#)
- [Intel® Advanced Matrix Extensions \(Intel® AMX\)](#)
- [Intel® Gaudi® 3 AI Accelerators](#)

### Ordering Guidance:

- [AIREV OnDemand](#)

### Country/Geo: Worldwide

**Edge Verticals:** Government; Healthcare; Financial Services; Telco; Energy & Utilities; Education

**Edge Use Cases:** Commercial / Enterprise AI Software
