

Unlock Data-Driven Growth With Advanced Analytics

Knowledge Base Agents Platform

Aktek's knowledge-based agents provide enterprises with a secure, intelligent, and efficient way to access and utilize their internal information. Purpose-built for data-sensitive environments, these advanced digital assistants can retrieve, analyze, and deliver contextually relevant insights from large internal knowledge bases.

Operating entirely within an organization's secure infrastructure, they eliminate reliance on external APIs while ensuring full data control and compliance. By streamlining information retrieval, improving decision-making, and preserving confidentiality, Aktek empowers organizations to unlock the true value of their internal knowledge and enhance overall operational efficiency.

Accelerate Business Transformation with Optimized, Ready-to-Deploy, Intel-Powered AI Partner Solution

- Whisper-Large-v3 runs 11x faster on Intel® Core™ Ultra 7 processor optimized with OpenVINO™ Toolkit.¹
- FP16 and INT8 precision modes optimize speed and efficiency for AI PC workloads.
- Local processing reduces cloud costs and ensures full data privacy.
- Scalable, cost-effective performance powered by Intel AI acceleration.
