

Solution Overview

The Future of AI in Retail
Tuesday, January 14 | 11:30am - 12:30pm | Expo,
Level 3, Expo Stage 4

The future of AI is at the Edge, where data generation is booming. As more data is generated at the Edge, it's essential to equip our customers and partners with the right solutions to help their businesses thrive. Sustainability, environmental, form factor, security, flexibility, management, and ruggedness are key factors to the success of implementing AI at the Edge. With Viva Energy, Lenovo and Intel "The Art of Possible is at The Edge." Let's innovate together!
